

PRESS RELEASE
05 June 2019

PCI Pal announced as 2019 Cyber Security Awards finalist

[PCI Pal](#), the secure payments provider to contact centres, is pleased to announce it has been selected as finalists in the *Innovative Product of the Year- Cloud Based* category of the 2019 Cyber Security Awards.

PCI Pal's Agent Assist PCI Compliance solution is nominated for enabling businesses to securely handle Cardholder Not Present telephone payments using DTMF masking technology, while ensuring sensitive card data is not disclosed to agents or exposed to an organisation's network.

Now in its fifth year, the Cyber Security Awards was established to reward the best individuals, teams and companies within the cyber security industry. Excellence and innovation are core themes, throughout all categories.

The Cyber Security Awards team reviews the industry, looking for the best possible applicants and encourages all those who are committed to progressing the industry, to apply. Organisations from across the world are eligible to enter as long as they have a presence with in the United Kingdom.

The winners will be announced at the Cyber Security Awards dinner and presentation at the Park Plaza Hotel, Victoria, on the 4th of July 2019.

Awards judge Karla Reffold said, "The competition this year is incredibly tough and diverse. This was the toughest year so far to have made the shortlist. There are so many fantastic individuals, innovative products and companies that are doing great things within cyber security."

Jane Goodayle, VP – Global Marketing added, "We provide globally-accessible cloud solutions to ensure that any organisation that takes payments by phone are PCI Compliant and any sensitive data is securely protected. For us, it is about safeguarding our clients' and partners' reputations by descopeing their contact centres from the requirements of PCI DSS. We are excited to be shortlisted in the Cyber Security Awards for our efforts and look forward to hearing the results when winners are announced in early July."
