

**PRESS RELEASE**  
16 July 2019

## **PCI Pal secures a place on the G-Cloud 11 framework**

[PCI Pal](#), the secure payments provider to contact centres, has been confirmed as an approved supplier in the 'Cloud software' category of the G-Cloud 11 procurement framework.

G-Cloud 11 is the latest iteration of the Government's Digital Marketplace framework, which is designed to provide central government, local councils, NHS Trusts and other public-sector bodies with access to approved suppliers of cloud-based services. The online platform offers public sector organisations consistency in quality standards and more competitive pricing.

PCI Pal already supports many public sector organisations in securing Cardholder-Not-Present transactions, to meet various data security, protection and compliance requirements.

Hugh James, Chief Technology Officer for PCI Pal said, "In today's world where data breaches or cyberattacks are becoming commonplace, it is important that all organisations put in safeguards to ensure the security of customers' payment data. Our globally-accessible cloud-based security solutions provide any organisation that transacts telephone-based payments with a secure environment that guarantees PCI DSS compliance.

"We are therefore delighted to be selected as a supplier on the Crown Commercial Service's G-Cloud procurement framework for the second year running, to make it easier for organisations, departments and trusts to have swift access to our range of solutions."

G-Cloud 11 features over 4,200 suppliers, which provide access to more than 31,000 services.

**Notes to Editors:**

**About PCI Pal**

PCI Pal is the specialist provider of secure payment solutions for contact centres and businesses taking Cardholder Not Present (CNP) payments. PCI Pal's globally accessible cloud platform empowers organisations to take payments securely without bringing their environments into scope of PCI DSS and other card payment data security rules and regulations.

With the entire product portfolio served from PCI Pal's cloud environment, integrations with existing telephony, payment, and desktop environments are simple and light-touch, ensuring no degradation of service while achieving security and compliance.

PCI Pal has offices in London, Ipswich (UK) and Charlotte NC (USA). For more information visit [www.pcipal.com](http://www.pcipal.com) or follow the team on Twitter: <https://twitter.com/PCIPAL>
