PCI Pal® releases podcast highlighting the Top 5 Agenda Items
for CISOs in 2021

PCI Pal, the global provider of cloud-based secure payments solutions, has today released a new episode on its podcast channel, Secure Payments, which provides advice to Chief Information Security Officers on five priority areas that must be on their agenda for the coming year.

The latest instalment 'Five Agenda Items for CISOs in 2021' is hosted by the company's own chief information security officer, Geoff Forsyth, who discusses the key topics on his 'to do list' right now. The episode is based upon Geoff's successful Education Seminar, presented at the virtual PCI London conference.

In the podcast, Geoff covers topics including: Brexit and the ramifications for payment security now the UK has left the EU; compliance guidance for those looking to move their IT infrastructure to the cloud this year; remote working; PDS2 and preparing for PCI DSS 4.0. The episode can be streamed here.

PCI Pal's Secure Payments podcast channel is designed to provide useful insights, fireside discussions and knowledge sharing on payment security and compliance. Contact centre, payment security and compliance professionals are encouraged to subscribe to receive monthly episodes.

To subscribe to the Secure Payments channel, visit: https://securepayments.castos.com/.

Notes to Editors:

About PCI Pal

PCI Pal is a leading provider of SaaS solutions that empower companies to take payments securely, adhere to strict industry governance, and remove their business from the significant risks posed by non-compliance and data loss. Our mission at PCI Pal is to safeguard reputation and trust by providing our customers with secure Cardholder Not Present payment solutions for contact centres and businesses.

Our products secure payments and data in any business communications environment including voice, chat, social, email, and contact centre. We are integrated to, and resold by, some of the worlds' leading business communications vendors, as well as major payment service providers.

The entirety of the product-base is available from our global cloud platform hosted in Amazon Web Services ("AWS"), with regional instances across EMEA, North America, and ANZ. PCI Pal products can be used by any size organisation globally, and we are proud to work with some of the largest and most respected brands in the world.
