PRESS RELEASE
16 November 2022

PCI Pal's new Pay By Bank innovation shortlisted for industry award

PCI Pal® (LON: PCIP), the global SaaS provider of secure payment solutions for business communications, is delighted to announce it has been revealed as a finalist in the 2023 Card & Payments Awards. Judges have shortlisted PCI Pal's new Pay By Bank digitally-native payment product for the Best POS Solution category.

The new PCI Pal payment method allows contact centers to utilise open banking technology so customers can simply connect their mobile banking app through a 'Pay by Link' URL to make payments directly or to receive refunds instantly. Pay by Bank from PCI Pal facilitates seamless, secure transactions between customers and merchants making it an ideal fit for contact centre payments.

The Card & Payments Awards recognise excellence, success and innovation across the UK and Irish card and payments industry. Each year many eligible organisations compete for one of the prestigious awards which are judged by an independent panel of industry experts. Over 1000 guests are anticipated to attend the awards ceremony, which will take place Thursday 2nd February at the Grosvenor House Hotel in London.

Jane Goodayle, Chief Marketing Officer of PCI Pal, said: "We are excited that judges have recognised the investment and development we have made to create new revenue generation and cost-benefitting solutions for contact centres. PCI Pal has solved the PCI DSS compliance issue and now, with our next generation payments, we are supporting businesses with enhancing their overall payment journey and customer experience.

"Our new multi payment checkout solutions, including Pay By Bank, allows merchants to achieve the true benefits of open banking technology within their contact centre, while giving customers the choice of how they wish to pay. We look forward to hearing the outcome of the awards in February."
